Details:

Start is close to Registration.

Finish for Green and Short Green is 500m from Registration / Download, crossing the main road and then back along the parking road. Orange has a separate Finish and needs to walk back 700m along a track to Download.

Green and Short Green cross the road during the course, so take care, it's not a busy road but cars do travel fast along it. Orange does not cross the road, but does go near to it, so take care. The road is marked out of bounds on the Orange maps. As there is no White or Yellow, we are giving out the Orange maps at Registration so children can be helped with their route before they run.

See you there, Joan
